

SpaceCat

Official Whitepaper

SpaceCat

what is SpaceCat?

THE NEW COMBINATION OF BLOCKCHAIN AND BUSINESS, SPACACAT IS A BOLD ATTEMPT, CREATE THE BEST PET CAT SERVICE PLATFORM.

SPACECAT (\$SC) is a brand-new pet cat service platform. In 2022, cat IP successfully attracted the attention of investors, and cat culture is likely to reproduce the success of BabyDoge.

Our team members are lovers of meme culture and have always wanted to build a cat service platform. This is a combination of Blockchain and e-commerce platform, and \$SC will become the only payment token of the platform.

Currency based on e-commerce platform

Based on the secure and transparent blockchain system, the adopted pets can obtain a unique blockchain identity code, and any information will be saved on the chain.

The adoption process is fully automated. Spacecat platform creates an automatic interface for adoption information with animal shelter centers in 12 countries.

Spacecat is a token created based on pet service e-commerce website. It continues to develop in a fair and transparent environment.

We adopt enmt coin technology, which makes our contract extremely safe. The handling fee of spacecat will be 6%.

Since \$SC is positioned as the only means of payment for the service platform, we will ensure its liquidity, just like legal tokens.

We will officially audited by:

TechRate

Perfect token allocation

In the case of 6% commission(2% Reward and 4% Liquidity), the team will use the tokens in hand for marketing, which is only 5% in the early stage. The team will be open and transparent about the whereabouts of marketing funds, and the ownership of tokens will be abandoned. We can't make evil changes to \$SC for the sake of the safety of all investors.

How does it help me?

SPACECAT will also be a social hub that connects developers to investors, marketers, influencers, and other parties, who are willing to contribute to the successful launch of their projects.

Anyone will be able to send a task request to any product on SpaceCat-Market that seems interesting for them. SC-Market will also rely heavily on connections to different social networks to expand the influence of the platform and the increasing number of customers.

We will officially listed on the following sites:

CoinGecko

CoinMarketCap

What about Tokenomics?

30% Liquidity
18% Pre-sale
5% for Marketing (Unlock)
20% Application Platform Development (Lock 2 Months)
5% NFT Casting (Lock 5 Months)
5% Business Partnership (Locked 1 Month)
5% Exchange (Unlock)
10% Team (Lock 1 Year)
2% Influencers Airdrop (Lock 3 Months)

SpaceCat Grand Scheme.

- SpaceCat created a pet trading platform that serves cats and pet owners. In 2022, cats will be the main business. In the past, Babydoge make charitable donations help with stray dog, and then SpaceCat will build an online platform for cats. This is a perfect combination of blockchain and reality. The unity of the love of blockchain investors for cats and the technology on the chain allows each adopted stray cat to permanently retain its identity information on the blockchain, so that the world knows that it has been here and loved. The platform mainly includes Free adoption, competition level cat trading, pet food and pet toy purchase, which can be paid with SpaceCat Token, and the adoption information will be kept and disclosed on the chain. NFT pledge will be launched later, and the first batch of NFT holders will enjoy the monthly discount of the mall. NFT will be limited, Please pay attention to the follow-up white list activities.
- Vertical pet e-commerce has achieved great success in recent years. According to the survey of packaged facts in the first quarter of 2022, Amazon is also the preferred online shopping platform for pet owners The strong cultural influence of the encrypted world will make the development of vertical pet e-commerce better and the combination of virtual and reality. SpaceCat will bring a great journey of integrating blockchain technology and Internet commerce!

Roadmap? We got it!

Phase 1

Fill presale for liquidity

500 Holders

Build service platform

1000 Telegram members

Launch on OKChain

Website launched

Community growth

Phase 2

GC and CMC Application

Marketing Campaign

Partnerships

\$1 Million Market Cap

Influencers

Social Media Growth

Platform build 80%

Voting site listings

Phase 3

CoinGecko Listing

Paid Contract Audit

CoinMarketCap Listing

Celebrity Marketing

Reach \$10 Million Market Cap

Break \$3 Million Market cap

Pet service build finished

Advertising in China Market

Additional Contract Audit

Community incentives

Company registration and listing

Roadmap

How do I buy?

1. Install Metamask for your Browser

Go to metamask.io and install the browser extension. Follow the steps to set up your wallet. Note! Remember to write down your seed phrase!

2. Set up OKX Chain on Metamask

Add BSC Network to your wallet and paste SpaceCat Contract as a custom token.

3. Send OKT to your wallet

Purchase or swap different tokens for OKT.

4. Connect your wallet to JSwap

Insert SpaceCat Contract address and insert the amount you want to swap and then click "Swap". Note! Use at least 6% slippage.
